* Requirements are subject to change without notice.

Electronic Lab Notebook (ELN) -
Designed to replace paper notebooks for Research, Analytical and Production laboratories. LABTrack meets all of the legal, regulatory and typical corporate requirements for maintaining laboratory notebooks.

The **LABTrack Pro Team Edition** is designed and priced attractively for smaller groups numbering from 5 to 200 users.

The **LABTrack Pro Enterprise Edition** is designed for larger scale implementations numbering from 50 to 10,000 users. The Enterprise Version is developed to support typical WAN bandwidth and global requirements.

The **LABTrack Personal Edition** installs on a Windows PC allowing users to edit notebooks locally. When combined with a Team or Enterprise version, users may check-in and check-out notebooks from the master database.
